**Summary:** The Illinois Environmental Protection Agency's (Illinois EPA) proposal amends Part 276 to reflect an amendment to the Vehicle Emissions Inspection Law of 2005. Public Act 97-106 amends the VEIL of 2005 by repealing the steady-state idle exhaust and evaporative system integrity inspection tests. These inspection tests were substituted for the on-board diagnostic (OBD) test for heavy-duty vehicles not required to be equipped with OBD systems meeting federal OBD II specifications and certain vehicles that could not receive the OBD test due to their design or with known OBD communication or software problems.

**Summary:** A current law mandates the phase out of copper, asbestos, lead, mercury, and cadmium from brake friction materials sold in Washington state. It also requires brake pad manufacturers to self-certify compliance with the law using third party accredited laboratories and to mark proof of certification on all pads sold in Washington state. The purpose of this rule

making is to develop these compliance criteria and address other issues necessary to implement this law.
