

Volume 1, Issue 1 / Tuesday, April 5, 2011

Dear AIA Members,

Welcome to the inaugural issue of AIA's *Matters of Import* e-newsletter!

Matters of Import, the communication link to our Auto International Association (AIA) members, is a new twice-monthly publication that will take no more than 30 seconds to read. More in-depth info on each particular issue will be available on our newly-redesigned Web site, www.aiaglobal.org. AIA is pleased to be celebrating our 30th year of serving the import automotive aftermarket.

Here's a short preview of coming attractions:

- Fabulous Networking Reception (Oh, that's what an FNR is!)
- Who's in the AIA Hall of Fame?
- Do you carry the best products our industry has to offer? See the AIA Industry Product Awards.
- Are you Import certified? Learn about the standard in the import industry for counterperson training.
- Who's minding industry legislation on Capitol Hill while you're working hard on your business? AIA's Government Action will bring you info on issues affecting your business.
- AIA has been supporting issues of free and fair trade since 1981. What are today's salient issues?

Thank you for supporting AIA!
